

Finnlo Maximum M5 Multi Gym

Finnlo Maximum M5 premium multi-gym allows you to finally get professional fitness studio results on all major muscle groups.

Equipped with two 96 kg weight stacks, it means even the most advanced weight-lifters can effectively build muscles.

Training on the Multi-Gym M5 will have you building muscle quickly and effectively, will strengthen those difficult to train areas such as back and legs and will give you definition over your entire body. Three separate training stations mean that two people can work out simultaneously.
