

## Body-Solid GDCC250 Deluxe Cable Crossover

The Body-Solid deluxe cable crossover GDCC250 is a device that allows you to efficiently train the muscle groups in the arms and upper body. With its robust and stable design featuring interchangeable handles, it offers an unlimited number of exercise possibilities. The wide and high frame enables you to perform a wide range of exercises using high and low pulleys.

The two cables can be used independently and are adjustable in twenty different heights. Additionally, the two 75 kg weight stacks can be used separately, allowing two people to train simultaneously. The cables rotate 180°, ensuring smooth movement in all directions. This device also features a unique chinning system, providing you with even more training options.

With the Body-Solid deluxe cable crossover GDCC250, you will undoubtedly achieve your fitness goals and enjoy the results.
