

Keiser M3i Indoor Bike

The Keiser M3i is a cycle that is easy to maintain, effective, comfortable, uncomplicated, and guaranteed to get you excited about cycling.

The hallmark of the Keiser M3i Indoor Cycle is its durability and that makes this bike perfectly suitable for using on board vessels in the marine and offshore industry.

The M Series line was engineered keeping maintenance costs in mind. Built from tough, long lasting and extremely durable materials, that require very little maintenance. M series Cardio equipment has a no-touch resistance system and a drive belt that rarely required adjustments.

Keiser M3i featuring Bluetooth wireless display. The computer can transmit to a receiver for projection onto a screen and can also partner up with a wireless phone or tablet.
