

NRG fitness Rubber Tile - 100x100x2 cm - Black

The NRG Fitness Rubber Tile is specially designed for durability and practicality, making it perfect for any gym or sports environment. This tile is made by compressing fine granules under high pressure, resulting in a dense and easy-to-maintain surface texture. Weighing 17.5 kg and 2 cm thick, this tile is highly resistant to heavy loads, making it ideal for use with heavy weights and fitness equipment.

Features of the NRG Fitness Rubber Tile:

- Finely pressed rubber granulate
- Withstands heavy weights and fitness equipment
- Noise and vibration damping
- Professional look
- Durable and functional
