

DUVETS

Our IMO/MED Wheelmark certified duvets are specifically designed for marine and offshore environments, providing a high level of comfort while meeting the strict fire safety requirements for onboard use.

Developed based on crew feedback, these duvets are engineered to deliver enhanced sleeping comfort without compromising their flame-retardant properties, ensuring both safety and crew well-being at sea.

Key Feature

- IMO/MED Wheelmark certified
- Flame-retardant and marine compliant
- Lightweight and comfortable
- Durable and suitable for intensive use
- Suitable for vessels, offshore units, and accommodation facilities

Technical Specifications
