

POCKET PLUS SPRING MATTRESS

Our Pocket Plus Spring Mattress is designed to deliver a high sleep quality at sea.

Featuring individually wrapped high-quality steel springs, the pocket spring system provides independent support, enhanced elasticity, and superior sleeping comfort.

Combined with premium comfort layers, the breathable fabric pockets promote optimal airflow and freshness while helping reduce moisture, bacteria, and dust mites, ensuring a clean, healthy and comfortable sleeping environment onboard.

Key Feature

IMO/MED certified for marine and offshore applications

Made from high quality phosphated steel springs

Promotes airflow and freshness while reducing moisture, bacteria, and dust mites.

Excellent pressure distribution and ergonomic support.

Reliable comfort for intensive onboard use
